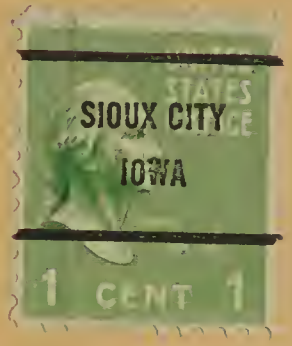
From W. S. Snyder
Breeder & Grower
"Quality Iris"
Sioux City, Iowa.

Sec. 562-P.L. & R.



Library, U. S. Dept of Agriculture

Washington, D. C.

To the Members of
American Iris Society:

I offer:

# IRIS "SIOUX CITY" TB

Registered - 1938. Introduced by the following concrete description:

"An even self - Heliotrope coloring that retains its delicate rare beauty in any light. A proportionate flower, S. Possessing its cupped uniformity the life of bloom, F. Drooping semi-flare. Stock 36 inches and of sufficient size to support the large blooms. Mid season - fragrance slight."

The name "Sioux City" is considered timely, worthy and logical - the color is new. A well known judge and grower said of Iris "Sioux City": "It has no known competitor in color."

The initial introductory price of $10. is far from an expression of value of this new hybrid; but rather a desire to make it possible to all iris lovers. Growers retaining complimentary price for three years.

I am using this method of offering this one of my origination (Iris "Sioux City") and will assume all responsibility of introduction, within a reasonable satisfaction to any purchaser.
